Jamshedpur, Jharkhand - 832110, India

OBJECTIVE

A developer with three years of hands-on experience building responsive, high-performance web apps in a variety of fields. Proficient in both frontend and backend technologies, such as React.js, Node.js, Tailwind CSS, and PHP. Accessible UI design, modular code, and SEO-friendly architecture have all been shown to improve the user experience, the performance of the site, and the level of customer engagement. Skilled at working with teams from different departments, using Git to improve workflows, and getting results that can be measured, like lower bounce rates, higher conversion rates, and faster delivery. Passionate about finding elegant ways to solve real-world problems and always eager to learn about new technologies in the web ecosystem.

EXPERIENCE

• **Easify Technologies**   *Aug 2023 - Present*
Full Stack Developer   Budapest, Hungary

  ◦ Architected and deployed three performant web applications using MERN stack, leading to a 35% improvement in load speed and enhanced user satisfaction.

  ◦ Constructed ADA-compliant, mobile-responsive front-end components utilizing React.js, HTML, and CSS; facilitated 20% longer user sessions.

  ◦ Composed backend services using Node.js and PHP, improving data reliability and minimizing latency by 40%.

  ◦ Streamlined the development workflow using modular code practices and version control, accelerating delivery timelines by 25%.

• **Scrippter IT Solutions**   *Sep 2022 - Sep 2023*
Software Developer   Jamshedpur, India

  ◦ Identified and resolved over 50 defects pre-release, cutting down post-deployment issues by 60%.

  ◦ Boosted functionality by diagnosing and optimizing both front-end and database-related performance bottlenecks.

  ◦ Collaborated with a team of four engineers to deliver three scalable client projects, collectively supporting 500+ daily users.

  ◦ Drove a 30% increase in lead conversion through intuitive navigation and responsive design techniques.

EDUCATION

• **Karim City College**   *July 2022*
B.Sc. in Physics   Jamshedpur, India
  ◦ Grade: 68.0%

• **Motilal Nehru Public School**   *Apr 2019*
Intermediate (12th Grade)   Jamshedpur, India
  ◦ Grade: 65.0%

PROJECTS

• **Easify Technologies**

  ◦ Increased organic traffic by over 1,000 monthly users through optimized page speed and SEO-focused layouts.
  ◦ Led the development of the official company site using React.js and Tailwind CSS, enhancing online reach and brand recognition by 20%.

• **Easify AI**

  ◦ Engineered a fully responsive user interface for tools including AI chatbots and document readers, ensuring seamless user interaction across devices.
  ◦ Fine-tuned the account registration flow, resulting in a 15% uplift in user onboarding success.

• **Renta Stay UK**

  ◦ Contributed to blog writing and search engine optimization, supporting improved content visibility.
  ◦ Assisted in front-end enhancements and technical development, helping maintain a consistent and user-friendly site experience.

• **Oemtronic – Auto Parts**

  ◦ Designed detailed product pages with advanced filtering and intuitive search features, simplifying product discovery.
  ◦ Achieved a 25% drop in bounce rates by refining navigation and improving user interaction.
